

## PRODUCT DATA SHEET

# Casco® FoilFix

SEALING COMPOUND USED FOR SEALING POLYETHYLENE MEMBRANES IN BUILDINGS ACCORDING TO DIN 4108-7

### DESCRIPTION

Can be used indoor and outdoor.

### USES

Excellent for sealing of polyethylene foil, both overlap joints and to different building materials.  
Good adhesion to galvanized steel, aluminium frames, gypsum boards and concrete.

### CHARACTERISTICS / ADVANTAGES

- One-component
- Good addition on most building materials
- Solvent free
- No smell
- Long aging durability

### PRODUCT INFORMATION

Composition	One component dispersion adhesive.
Packaging	300ml cartridge
Colour	Grey
Shelf life	12 month in unopened package
Storage conditions	May not be exposed to temperatures below 0°C or above +35°C
Density	Approx. 1200 kg/m3
Solid content by weight	Approx. 65 %
Volatile organic compound (VOC) content	None
Consistency	Gun-grade thixotropic
Service Temperature	-20°C to +80°C
Product Temperature	+5°C - +35°C
Ambient Air Temperature	+5°C - +35°C
Curing Time	Approx. 3-4 days depending on surface

## APPLICATION INSTRUCTIONS

Make the surfaces to be sealed clean and free from grease.

Cannot be used in direct contact with water.

Apply the sealing compound using a caulking gun.

Cut the nozzle at an angle and apply in strings with the diameter 3-4 mm.

Do not use excessive amounts of the sealing compound. The materials must be pressed firmly together to ensure complete wetting of the surface.

### APPLICATION METHOD / TOOLS

Cartridge gun

### CLEANING OF EQUIPMENT

After contact with skin, wash with water and soap.

Adhesive spots can be removed after drying by rubbing.

Wet adhesive can be removed with water, hardened adhesive mechanically.

under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request or on the website [www.casco.eu](http://www.casco.eu).

## FURTHER INFORMATION

### LIMITATIONS

FoilFix is not intended for load bearing joints or movement joints with high or fast movements.

FoilFix is not intended for esthetical joints (visible).

## BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

## LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

## ECOLOGY, HEALTH AND SAFETY

### REGULATION (EC) NO 1907/2006 - REACH

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

## LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Casco products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied
