

PRODUCT DATA SHEET

Casco® RX Aqua

For gluing paper, cardboard, and photos

DESCRIPTION

Casco® RX Aqua is intended for gluing paper, cardboard, and photos.

USES

The package has a built-in applicator to facilitate application and ensure the correct amount of glue.

CHARACTERISTICS / ADVANTAGES

- Does not wrinkle the paper
- Is transparent and colorless
- Odorless
- High dry content

SUSTAINABILITY

For the product's assessment in the different building criteria systems, see [MiljöAppen](#).

Here you will also find information about EC1, M1, link to the building product declaration, safety data sheets etc. The MiljöAppen, can also be reached by entering www.sikamiljoapp.se in your web browser.

PRODUCT INFORMATION

Composition	Basis: Water-soluble polymer; Solvent: Water
Packaging	Bottle cont. 85 ml
Shelf life	24 months in a closed package
Storage conditions	May not be exposed to temperature below +10 °C and above +30 °C
Colour	Colorless and transparent
Density	~1340 kg/m ³
Solid content by mass	Dry solids: ~70 %
Consistency	Low viscous

APPLICATION INFORMATION

Material temperature	Application temperature: +15 °C - +30 °C
Relative air humidity	>90 % should be avoided
Curing time	Drying time: 5-3 minutes, depending on type of paper.

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

FURTHER INFORMATION

Observe good cleanliness when working with the product.

Keep out of reach of children.

Do not empty into drains.

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

SUBSTRATE PREPARATION

Joint interface must be clean, dry, and free from oils, loose aggregates, laitance, release agents, waterproofing and other contaminants.

DIRECTIONS FOR USE

Apply a thin layer of glue on the surface which should be glued and put it on place.

Note: When gluing photos, avoid spilling glue on photos and album paper in order to prevent the pages from being glued together.

The reason for this is that if the glue is exposed to high humidity, >90 % RH, it will be sticky and when the climate later gets drier the pages may stick together.

CLEANING OF EQUIPMENT

Cleaning is best made with soap and water.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Casco products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request or on the website www.casco.eu.
